Dormers from FasadaPlus  
instead of roof windows

### + expanding your room's space

You do not need to move to have more space. Thanks to dormers, you can expand your room into a more spacious and functional area. Installing roof windows in place of dormers allows better space utilization and increases the effective space up to 25%.

### + interesting architecture

An additional advantage for you is that your building receives an elegant architectural line. A properly selected element of design will distinguish your house from those around it.

**Dormers from FasadaPlus  
instead of roof windows**

**+ freedom to furnish your attic space  
exactly as you wish**

Get rid of problematic roof angles to make your attic functional.  
Enjoy the freedom of space as your attic transforms into a usable  
room right before your eyes.

**+ utilization of window sills and  
bookshelves**

Installation of the dormer creates a wide window sill which can  
be used for anything from a desk to a storage area.

## Product comparison

### + comfortable usage throughout all 4 seasons regardless of weather

When you choose dormers instead of roof windows, you avoid all the problems caused by snowfall or rain including: blackouts from snow, flooding with rain water if you forget to close a window, as well as noise from raindrops.

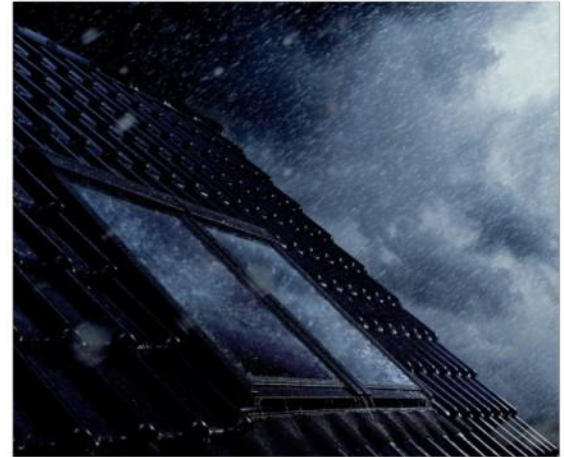

The problem of overheating of a roof window during the summer is eliminated completely. Additionally, our dormers stay clean much longer than roof windows.

Dormer windows give you a much nicer, panoramic view of your surroundings.

### + price and time

Our dormers are a profit not a cost!  
The value of the additional living space we will create exceeds the installation costs.  
Prefabricated products of **FasadaPlus** are fast and easy to install all while eliminating an unnecessary mess at your building site.
