Baywindows from FasadaPlus  
instead of traditional windows

Why should you choose  
FasadaPlus baywindows instead of  
traditional windows?

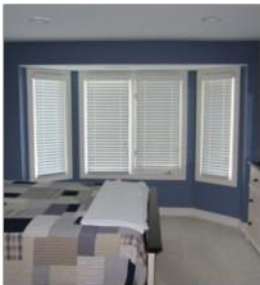

### + expanding your room's space

You do not need to move to have more space. Thanks to a baywindow you can expand your room into a more spacious and functional area. Installing a baywindow in place of a common window allows for better space utilization and increases the effective space by several square meters.

### + interesting architecture

Additionally, your building receives an elegant architectural line. A properly selected element of design will distinguish your house from those around it.

## Baywindows from FasadaPlus instead of traditional windows

### + new opportunities for interior design

Additional square meters, an improved floor plan, stronger illumination and unique design are just a few of the advantages.

Now you can have your dream workspace, relaxation area or a unique dinette for which you previously lacked space.

Create a cozy play corner with a great outdoor view for your child.

Do not let the walls limit you any more. Create the living space of your dreams!

#### + freedom to furnish your space exactly as you wish

Baywindows give you a lot of possibilities to furnish the area with seats, wardrobes and shelves.

Nothing is holding you back. Get as creative as you want.

#### + utilization of window sills and bookshelves

The bay window comes with a wide window sill which can be used for anything ranging from a storage space to desk.

### + panoramic view and a better integration with the surroundings

Baywindows give you the opportunity to be in an open space and enjoy close contact to the outdoors in every season without ever leaving your house.

### + more delight in your room

You already know how vital daylight is to our well-being. The installation of our bay windows will allow more sunlight to enter your home, improving the atmosphere you live in.
